

Finance & Risk Controller in an international trading company

At Frey we are experiencing rapid growth and we are currently looking for a new full-time colleague with a winning mindset to support the Finance and Risk department. We are offering a unique opportunity working with both financial controlling and risk management in an international oriented trading environment.

You will be responsible for providing timely financial reports, monitoring risk exposures and other support functions. You will be working closely with other departments in operational areas to support trading, future business potentials, liquidity forecasting and risk exposure of various nature. Together with our Finance & Risk Manager you will ensure the integrity of Frey's financial information and reporting.

The position as Finance & Risk Controller is a full-time position which offers the opportunity to develop your general knowledge in finance and accounting by overseeing the day to day tasks outsourced to external providers. Furthermore, this is a great opportunity for you to gain and develop professional and personal experience within the trading industry where risk management is key to success in daily operations.

We operate in a fast-paced trading industry and we take pride in making our assessments and decisions based on data and facts. The ideal candidate will not only thrive in a detailed oriented world such as accounting and risk but also enjoy a fast-paced collaborative work environment with focus on process improvement and scalability as the company grows.

Your responsibilities:

- Oversee and facilitate the day to day accounting areas outsourced to external providers.
- Maintain and develop the financial control environment across Finance and Risk.
- Monitor, evaluate and mitigate the company's risk exposure across Finance and Trading (credit risk, counterparty risk, hedging risk, liquidity risk etc.)
- Maintain and develop our Risk Exposure tools
- Ensure proper implementation of financial controls and policies
- Prepare various financial and risk reporting to key stakeholders in a timely manner
- Assist with various ad hoc assignments within finance.

Your qualifications

We expect that you:

- Are a recent graduate (or about to graduate this summer) from a relevant university level education
- Have 1-3 years of basic accounting experience from previous jobs
- Have great skills in Microsoft Office Suite and VBA experience is only a plus
- Have an excellent command of English, which is our corporate language
- Can work well independently and within a team environment

We offer:

- A unique chance of directly impacting the success and development of a commodities trading company, a subsidiary to Maersk A/S
- Flexible working hours
- Professional and personal development in an international environment, with excellent career prospects
- Skilled colleagues who will contribute to creating a steep learning curve
- Compensation according to qualification

Personal skills:

We expect that you:

- Take responsibility and have a "go-getter" attitude
- Are efficient, dedicated and detail-oriented by nature
- Can work independently and develop into the expert within your area
- See opportunities where others see problems
- Live our values and have a positive attitude towards tasks, both large and small
- Want to and are capable of making a difference within Frey
- Bring creativity and always challenge the status quo

Job start will be as soon as possible. We will be screening candidates on an ongoing basis.

If you have any questions for the position, please contact Finance & Risk Manager Lasse Tovgaard for more information. (+45 3126 8814 or lt@freycommodities.com)

Please send you application, including cover letter, CV and grade transcript, to: job@freycommodities.com, marked "Finance & Risk Controller".

We look forward to hearing from you.

With a clear goal to optimize the flows of essentials such as grains and oilseeds, we aim to connect world-class infrastructure with a data driven trading mindset and expertise to develop reliable commodity flows at a competitive price.
