

## Ambitious and bright student employee to help shape global commodity flows

Are you among the top students in your class and do you want to challenge yourself in an international commodity trading environment? Then this is your chance to join a start-up owned by Maersk and have a direct impact on the success and development of the company.

You will join a team of skilled and ambitious Analysts and you will be actively engaged in developing essential models and tools to improve our operations and trading decisions.

If you have the ambition and drive to make a difference, you will hit a steep learning curve, gain your own areas of responsibility and open a world of opportunities for yourself.

### Your responsibilities:

- Maintain existing tools and models in our back-, middle- and front office, with focus on supporting our Senior Analyst team
- Use your capabilities within programming/coding to create new tools and models to improve decision making and optimize processes
- Data analysis and development in relation to existing markets and models as well as novel solutions
- Identify areas for improvement and pitch solutions
- Assist teams with various ad hoc assignments
- Can work at least 20 hours per week

### Your qualifications:

We expect that you:

- Are enrolled in a relevant university level education, preferably within Economics or Computer Science
- Have an interest and capabilities in programming and how to apply this into tangible solutions
- Are well structured with an analytical mindset
- Have great skills in Excel.
- Have knowledge of VBA, SQL or other programming languages
- Have an excellent command of English, which is our corporate language

Job start will be as soon as possible. We will be screening candidates on an ongoing basis.

If you have any questions for the position, please contact Jeff Løcke Laursen (+45 5114 6695 or [jll@freycommodities.com](mailto:jll@freycommodities.com)) for more information. Please send you application, including cover letter, CV and grade transcript, to: [job@freycommodities.com](mailto:job@freycommodities.com), marked "Analyst".

We look forward to hearing from you.

### We offer:

- A chance to be part of Maersk backed venture on a unique mission to challenge industry norms
- Empowerment and responsibility from day 1
- Becoming a part of a winning team and a unique start-up culture
- Flexible working hours also around exams
- Professional and personal development in an international environment
- Office in the heart of Aarhus

### Personal skills:

We expect that you:

- Have an interest for international business and data-driven business models
- Are independent and ready to actively take responsibility and ownership
- Want to and are capable of making a difference within Frey
- See opportunities where others see problems
- Take responsibility for your own performance and development

Frey connects world-class infrastructure with a data-driven trading mindset and expertise to develop reliable commodity flows at a competitive price. Our goal is clear: to optimize the global flow of grains and oilseeds.
