

## Ambitious student employee to help optimize global commodity flows through data and business intelligence

Frey is looking for a top student with a challenger mindset. If this is you, then this is your ticket to join Aarhus' coolest start-up and to gain responsibility and valuable experience from day 1 in the role.

In this role, you will have a unique opportunity to become part of an exciting growth journey and join a team of specialists in the area of data, analysis and programming.

If you have the ambition and drive to make a difference, you will hit a steep learning curve, gain your own areas of responsibility, and open a world of opportunity for yourself. For the right candidate and subject to stellar performance, full time employment is on the table after graduation.

### **Role and Responsibilities** – you will be:

- Maintaining existing tools and models in our back-, middle- and front office, with focus on supporting our Senior Analyst team
- Using your capabilities within programming/coding to create new tools and models to improve decision making and optimize processes
- Helping build the data foundation and infrastructure for our modelling and trading algorithms
- Identifying areas for improvement and pitch solutions to commercial and operational teams
- Working at least 20 hours per week, and have the ability and willingness to go the extra mile

### **Expected Skills and Experience** – we expect that you:

- Are enrolled in a relevant university level education, preferably within Computer Science, Software Engineering, Economics, Mathematics or similar
- Have an interest and capabilities in programming and data crunching
- Have experience or knowledge of VBA, SQL, DAX, Python or other relevant programming language
- Are well structured with an analytical mindset, result-driven and able to work independently
- Have an excellent command of English, which is our corporate language

### **About Frey:**

Frey makes the market for containerized agricultural commodities more efficient and creates opportunities by connecting a data-driven trading mindset to a world-class infrastructure and logistics expertise. Frey is a venture owned by Maersk Growth.

Job start will be as soon as possible. We will be screening candidates on an ongoing basis.

If you have any questions for the position, please contact Jeff Løcke Laursen (+45 5114 6695 or [jll@freycommodities.com](mailto:jll@freycommodities.com)) for more information. Please send you application, including cover letter, CV and grade transcript, to: [job@freycommodities.com](mailto:job@freycommodities.com), marked "Data Analyst".
