

## Operations and supply chain analytics internship to drive innovation and data enabled business development in global start-up

Are you ready to be a part of Aarhus' coolest start-up? Frey makes the market for containerized agricultural commodities more efficient and creates opportunities by connecting a data-driven trading mindset to a world-class infrastructure and logistics expertise.

While being an expert in trade and logistics, Frey wants data efficiency to be the competitive edge of the business and the strategic sweet spot. Frey is working off a data-driven business model, and we offer you the opportunity to learn through exploration of real-world optimisation problems.

### What we offer

- A start-up culture with the opportunity to cooperate with young ambitious professionals and strong capacities within data, commodity trading, logistics and finance.
- Mentoring to enable personal and professional development during the internship basis in-depth knowledge about topics within operations and supply chain management.
- Exposure to operations and supply chain management in a global setting with exports out of NAM and AUS to customers in SEA basis containerised ocean logistics.
- Real-world optimisation problems within transport and container logistics and the opportunity to explore sophisticated supply chain analytics.
- Hands-on experience with modern tech and data estate to enable development and implementation of optimisation and analytics models.
- Potential master's thesis collaboration within operations and supply chain management.

### What we expect

- Strong professional interest within optimisation, prescriptive analytics and applied modelling in operations and supply chain management.
- Experience with one or more of the following areas: data management (e.g. Excel, SQL), programming (e.g. Python, VBA), mathematical programming solvers (e.g. CPLEX, Excel Solver).
- Have a challenger mindset and is ready to go the extra mile.
- Have an excellent command of English, which is our corporate language.

Frey is a venture owned by Maersk Growth born in 2018 to address the inefficiencies in the container value chain, like moving empty containers back to deficit areas.

If you have any questions for the internship, please contact Karsten Young (+45 40 85 61 63 or [kya@freycommodities.com](mailto:kya@freycommodities.com)) for more information. Please send your application, including cover letter, CV and grade transcript, to: [job@freycommodities.com](mailto:job@freycommodities.com), marked "Operations and Supply Chain Internship".

We look forward to hearing from you.
