

Logistics Coordinator with hands-on mentality & challenger mindset working out of Singapore

At Frey we are connecting local businesses with suppliers across the globe, enabling new access and opportunity to markets, materials and products. Driven by a strong belief in simple, digital, and transparent trading of commodities that enables competitive solutions for any kind of business, regardless of type and size. Frey's footprint in Asia is growing quickly and this is a unique opportunity to join an exciting journey. For this position we are looking for a person with the drive to improve supply chain processes as well as having the right touch dealing with customers.

Frey's mission is to improve the efficiency in which agricultural commodities move around the world, and we are looking for someone having 1-5 years of experience coordinating shipments to our Asian customers ensuring logistics and shipment schedules are executed smoothly. This individual must take responsibility and have a 'go-getter' attitude as well as being efficient, dedicated and detail-oriented by nature. In this role a structured approach is key.

You will become part of the global execution and logistic function, making sure that trades are executed in time and as efficiently as possible. Working out of Singapore and reporting to the Head of Logistics in Denmark, we expect that you are proactive, structured and thrive in a fast-paced environment. You can maintain a composed overview, when things get hectic, and you seek to improve continuously, by keeping a learning mindset.

Your role and responsibilities:

- Customer coordination and service in relation to planned and on-going shipments.
- Act as Logistics teams' customer touchpoint taking responsibility for issue resolution and exception management.
- Be Frey's subject matter expert on Asian import regulations & logistics.
- Handle letters of credits and other payment instruments and pro-actively seek to improve the processes and tasks.
- Create export documentation for our overseas shipments ensuring that they are compliant with our contract terms and meet our customers' requirement.
- Support execution of all trades and developing the functional capabilities within execution.
- Drive a zero-tolerance mindset towards cost avoidance, shipment delays and manual errors.

Your skills and qualifications:

- From the grains trading industry, with 1-5 years of experience in an execution, logistics or trading function.
- Skilled and confident in managing contract and shipping documentation relating to the grains trading industry.
- Knowledgeable and experienced with GAFTA.
- Experienced in handling letters of credit and other payment instruments.
- Interested by the intricacies of shipping, logistics and grains and have hands-on experience within the area.
- Preferably experienced in import logistics in Asian destinations.
- Experienced in optimizing execution workflow and managing a portfolio of shipments.
- Able to work with stakeholders efficiently across borders and time zones.

What's next?

Job start will be as soon as possible. We will be screening candidates on an ongoing basis. If you have any questions regarding the position, please contact Paulina Heine (phe@freycommodities.com) for more information.

Please send your application, including cover letter and CV, to: JOB@freycommodities.com marked "Logistics Coordinator".

Frey connects world-class infrastructure with a datadriven trading mindset and expertise to develop reliable commodity flows at a competitive price. Our goal is clear: to optimize the global flow of grains and oilseeds.
